LR 57

Russia's Brezhnev came out with to freeze the nuclear powers, at the same time he made his famous speech, he said, we are a peace loving nation, we don't want war and we won't...we will be the last one to use atomic power against another one. He went on with his speech and said, but we want to make the whole world Communist. I want to ask you, how in the world are you going to do that and be a peace loving nation? I wish perhaps this group would go over to Poland or East Germany or Hungary or Czechoslovakia or Yugoslavia or many more, Afghanistan, or many more, and ask them if they are a peace loving nation. You know, I nearly laughed off of my chair when he said it was a peace loving nation and went on with his speech. I became kind of sad then when a few gullible Americans believed him and started the freeze movement over here. I became kind of sad about it. I got a little bit angry when I heard about Senator DeCamp and Senator Wesely having a resolution here to have that here in Nebraska. I became more angry as I got to thinking about it that those, you know, peace loving people are fooling themselves. They are trying to fool me also. They have won about ninety percent already what they want. They have got the propaganda, publicity, and really what they are going to try to get now is perhaps not even worth the paper it is written on. And then I became more angry when I got to thinking the time I spent in the service, I am not going to tell you a war story but I do want to tell you that I don't like where it is cold. I spent many, many weeks with not even more clothes than I have on here fighting for the principles I believe in and one of those are freedom, freedom that I can get up here and speak against this peace freeze. Senator Wesely can get up and speak for it. Within reason we can say what we want to about our governments and we don't have to worry about the KBG or the CIA or any other government following us home and maybe shipping us to Siberia or someplace. I passed out some things to you earlier. It says, Soviets crack down on peace activists. Soviet police crack down on Moscow's only independent peace movement and by Saturday night ten of the group's eleven members have been taken to the police station and warned to stop their activities. We are not going to be warned here, but let me tell you, ladies and gentlemen, if we don't become strong, it will be over here pretty soon. As you well know, the goal of the Communists is to make the whole world...the goal of Russia is to make the whole world Communist. Our government has more of a goal for reduction. I don't know if you people know it or not but the House yesterday turned down an amendment to a reduction in nuclear weapons. The peace movement people didn't want that reduction. It kind of
